2.5.1 Mechanism of internal/ external assessment is transparent and the grievance redressal system is time-bound and efficient

- Internal assessment holds 30% weightage in overall grading of students in PG and 4 year UG courses. The exam is taken by respective departments according to the university **academic calendar**. Marks are distributed across class test, PPT, assignment/quiz, attendance etc. The marks of exam are submitted to the examination department which uploads it to the **university portal**. This process is very transparent and time-bound.
- External Exam is conducted by the university. Students appear in theory exams at a center different than their parent college while the practical exams are conducted and marked at parent college by an **External examiner**. University **appoints faculties as examiners** for the evaluation of answer sheets of theory papers at an evaluation center. The whole process is efficient and transparent.
- Any grievance related to the exams is **forwarded by the college Grievance Redressal Unit of Examination department** to the university examination cell. Students appeal to the university examination cell through the proper channel for scrutiny of their results. These appeals are addressed in an efficient and time bound manner.
