Webinar-4 (Department of History)

“Migration and Migrants: Past, Present and Future”. Organized by History Department, Gangadevi Mahila Mahavidyalaya.

Migration is a phenomenon as old as humanity. Increasing migration is both the consequence and cause of growth of cities. At such, cities are now becoming crucibles of people of different socio-cultural and economic backgrounds and origins. Generally, people migrate to cities for various reasons such as limited employment opportunities in their place of origin, freedom from poverty, and socio-political unrest to the place of destination. However, their lives and experiences at the place of destination are usually characterized by various uncertainties, discriminations, and so on. The economic crisis induced by COVID-19 could be long, deep and pervasive when viewed through the lens of migration. Lockdowns, travel bans and social distancing has brought global economic activities to a near standstill, and as a consequence we were introduced to the concept of webinars to keep our academia moving ahead.

Webinar-10 (International Webinar by Department of Botany)

An International webinar was organized on June 20th, 2020 on topic “The Post-Pandemic World order: what can you do to ace the new game?” by Department of Botany, Ganga Devi Mahila College, Patna.

Pandemic has cast its spell all around but the spirit of teaching fraternity of our College remains undefeated. An international webinar under the aegis of Department of Botany was held on 20 June '20 to understand the effects of the pandemic, the changes it is likely to bring in the methods of formal learning and in the job market. The webinar also discussed the way forward, especially for the younger lot, to equip and align better with the new eco-system.

The topic “The post pandemic world order: what can you do to ace the new game?” could not have been titled better as it was intended to ignite a resolve to win over the present day challenges. And the speakers, Prof. Sankalp Pratap from IIM Trichy and Ms. Deepa Miglani Sinha, VP from Babel, Berlin, Germany hit the bull in the eye by their incisive narration. To extract maximum from these two speakers, Ms. Anshika Sinha, an investment associate from Lightbox Venture, Mumbai played the role of a moderator to near perfection. She acted as a bridge between the speakers and the audience.

The poster is for an international webinar organized by the Department of Botany at Ganga Devi Mahila Mahavidyalaya, Patliputra University, Patna. It features a background image of a desk with a laptop, a pen, and a smartphone displaying a calendar for June 20th at 12:30 PM IST. Prof. Sankalp Pratap explained that formal education had already moved more towards online learning and he cited the present webinar as demonstrating that trend. But he also cautioned that online learning was not the end, it has to be tempered by doing it personally/practically to ingrain the knowledge fully. He also said that the job market was changing its contour and permanent jobs were getting replaced by jobs of temporary nature which were more need based or more contractual in nature. Hence, it

was imperative, that job aspirants hone their skills as the market place will respect those who are more skilled and who can deliver.

Ms. Deepa Miglani Sinha also talked about the necessity of skill development. She emphasized on the need to build one's own brand and reputation to remain relevant and thereby in demand. By branding she meant one should devote time to develop those skills intensively which he/she wished to acquire and practice. The entire persona needed a look-up to survive. Therefore, it was necessary to find out how much time one was devoting in the desired area and this could be easily tracked by maintaining a journal of daily activities.

The webinar was organized by Dr. Punam Sinha, Assistant Professor, Department of Botany and it witnessed introduction of “online” registration and feedback forms and issuance of e-certificates. At the beginning, Prof. Mani Bala had set the tone of the discussion in her welcome address by highlighting the relevance of the topic and emphasizing that one had to win over fear to win the game. The webinar came to an

end with the vote of thanks proposed by Dr. Bimla Choudhary, Head of Department of Botany.

In conclusion, it can be summarized that Darwin's theory "survival of the fittest" continues to remain relevant and one only needs to develop and upgrade his/her skills to ace the new game.

Webinar-12(International Webinar by Department of Mathematics)

A one day international webinar was organized by Ganga Devi Mahila Mahavidyalaya, Kankarbagh, Patna on “Numbers, the ultimate tool: interpreting numericals data to analyse the development of COVID – 19 crisis” on June 24th 2020 on zoom app.

Background: COVID-19 presents one of the most serious health threats. Though it is primarily a health crisis, it is to a great extent a social and economic crisis as well. In order to understand the true impacts of COVID-19 crisis, we can analyse numerical data emerging from different parts of the world to comment on how the health, behavioural, social and economic ramifications of this crisis are panning out and further use this knowledge to frame effective planning policies and programmes in these diverse development sectors. An underlying feature of the rapid spread of this disease is its urban face, building on high-speed and fast global, regional and mobility. We present some highlights from across the globe to highlight ways in which the COVID-related vulnerabilities intersect with the already present health, mobility, digital and socioeconomic inequalities.

The poster is for an international webinar organized by the Department of Mathematics at Ganga Devi Mahila Mahavidyalaya, Patliputra University, Patna. It features the university's logo and crest. The title of the webinar is "NUMBERS, THE ULTIMATE TOOL: INTERPRETING NUMERICAL DATA TO ANALYSE THE DEVELOPMENT OF COVID-19 CRISIS". The date and time are 24th June, 2020, from 5 pm to 6 pm IST. A Zoom App icon is shown. The speaker is Dr. Tanu Priya Uteng, Senior Researcher at the Institute of Transport Economics, Oslo, Norway. The organizer is Smt. Highlights: Numerical data analyses has been so far employed to extract information on the following aspects:

Effects of the built environment and socio-economic factors on epidemic vulnerability in urban neighbourhoods and across cities.

Short term implications for people's practices of mobility.

Mid- and long-term impacts on daily urban mobility, residential characteristics, and spread of COVID-19.

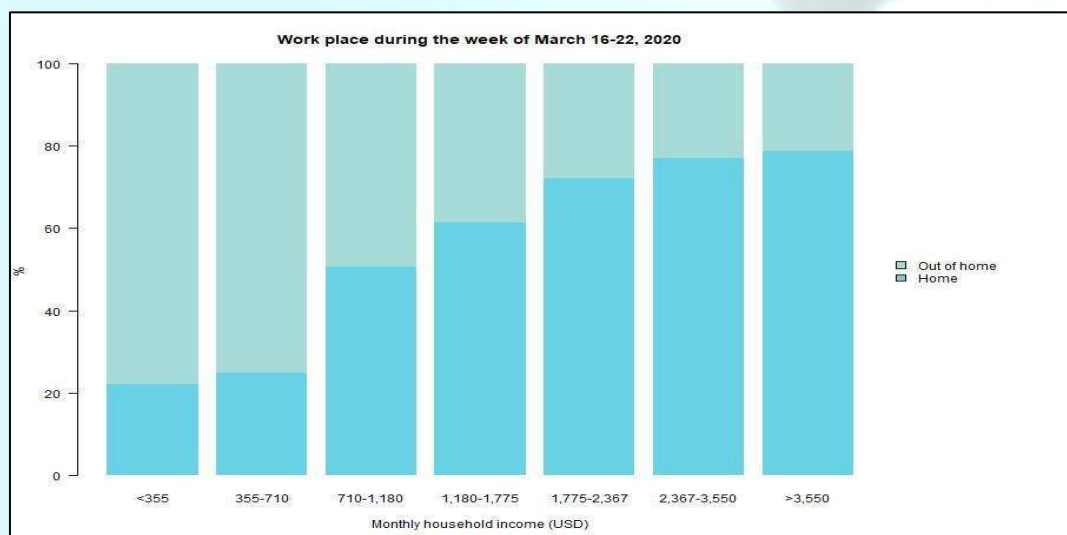

For example, the case of Malta highlights the socio-economic and geographic variations in spread of COVID-19 virus. The northern island, housing a population with relatively high socio-economic status, was less affected than the southern island. Further, the southern island with higher rates of pollution also exhibited higher rates

*Figure 1: Map of infections in each locality and by region in **Malta***

source: <https://www.tvn.com.mt/en/news/map-shows-area-with-highest-number-of-covid-19-infections-is-in-the-centre-of-malta/>

of infection.

Further, there are important differences in transport modes used by different socio-economic groups, and by simply plotting the numerical data on mode usage, we can highlight important differences between the rich and the poor, and the formal and informal sectors. This enables us to comment on why a flat lock-down policy might not be the right solution in future shock-events like the COVID-19 episode.

*Figure 2: Workplace during the week of March 16-22, 2020, in **Santiago de Chile***

source: Tirachini et al. 2020

As is evident in figure 2, the case from Chile highlights that it was the higher-income groups which had the privilege of working from home (WFH) and lower-income

groups, often working in the informal sector, simply did not have the luxury to WFH. This result is consistent across the world.

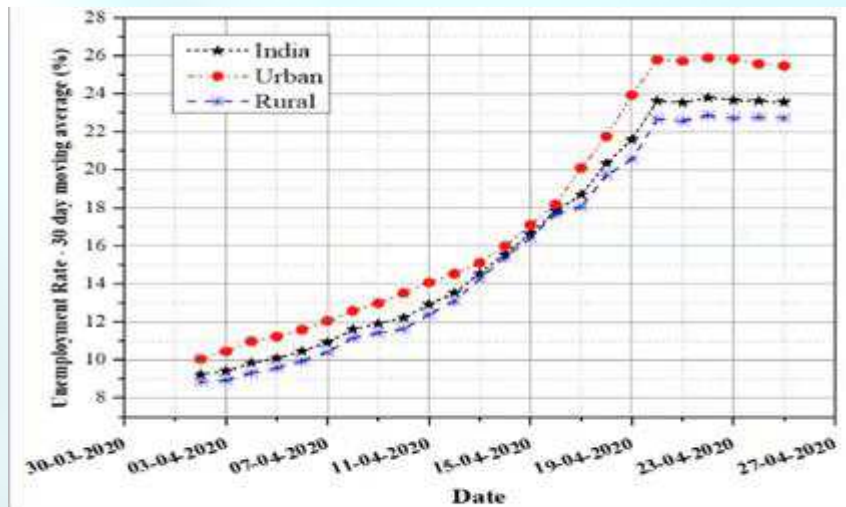

Figure 1: Effect on unemployment rate, Rural vs. Urban India

source: Center for Monitoring Indian Economy 2020

A number of facets can be explored by employing numerical analysis in this manner. For example, rise in unemployment (example case of India presented in figure 3), decline in tourism, delineating high-risk spaces, operational and cost effectiveness of protection measures, predictions based on mathematical modelling exercises etc. are some critical factors to be constantly developed and monitored.

During the COVID-19 pandemic, there has been a surge in the cases of domestic violence. There has been a global slowdown, massive economic dislocation, shut down of businesses, a spectre of looming unemployment often accompanied by the threat of hunger, poverty and a general uncertainty regarding the future. Keeping in mind the discourse around current debates and sensitization about the intersectionality of the society and how various identities of an individual subject him/her/them to different lived experiences, we need to recognize representation with respect to social identities. Understanding gender-based exclusion of women requires one to look into the problematic aspects rooted in history. Customs and social practices come together

to create social images and solidify hierarchical structures. The nature of patriarchy in India is a complex interaction of religion and these societal norms. Patriarchal power structure have always strived to control women, using customs and rituals working against women at both structural and systematic levels. These subjugation and control have deprived women of their autonomy and agency further causing them to be in the dark about their own rights. The violence against women is deliberated upon to express power relations against a section of people in the gender spectrum. The webinar aimed to discuss the nuances of the hindrance women face at the onset of the COVID-19.

Our speakers are achievers in many different fields, Mariam Diallo Drame, President AFLED and President Obama's forum with YALI, Natalie Kostus, V.P. International Alliance of women, Nayana Sahasrabuddhe, Vice President –BSS and our Guest of Honour was Prof. Mani Bala, Principal, Ganga Devi Mahila College. It was an immense honour to have an all-women panel as part of this webinar. Our discussion was thoughtful, analytical and inspiring.

Miss Natalie voiced about a very important case of cyberbullying and how teenagers are more vulnerable especially young women to such crime which has seen a surge during COVID-19. She expressed her opinion on women in the informal sector who aren't paid during these times and this has worsened the situation. As her position is from economic point of view, she gave a well-defined view on finances being one of the causes of domestic abuse at home during COVID-19.

Nayana Sahasrabuddhe spoke about shift from feminism to familism and how men are more aggressive, and they need to perform better with their partners and work on themselves. She highlighted the narrative of the Indian Society in particular and the lack of gender sensitization in our culture. And lastly, Miss Mariam spoke about the African perspective about how tradition and culture bind women and make them more susceptible to gender-based violence at home which has increased during COVID-19.

The Webinar was organised by Dalit Adivasi Professors scholars Association (DASPSA) in association with Ganga Devi Mahila Mahavidyalaya, Patna. DAPSA is a new, independent, non-partisan think tank which brings forth discourses of the marginalized by the marginalized.

किया। उन्होंने कहा कि यह पहला मौका है जब दोनों कॉलेजों की छात्राएं ऑनलाइन एक-दूसरे से मिल रही हैं। इससे दोनों राज्यों से जुड़ी संस्कृति और परंपरा को समझने का मौका मिलेगा। कॉलेज की छात्रा वनमुन, इलियास क्षमा, अपूर्वा दास, अनामिका डे, पर्सोना भट्टाचार्या और अपर्णा देबबर्मा ने अपने राज्य से जुड़ी परंपरा, पर्व त्योहार, संस्कृति, खान-पान आदि के बारे में विस्तार से बताया। वहीं गंगा देवी कॉलेज की छात्रा तान्या, साक्षी, पायल, सना रफत, श्रुति श्रीवास्तव और प्रभा ने कॉलेज, यहाँ मनाये जाने वाले पर्व-त्योहार, लोक गीत की जानकारी दी।

गंगा देवी महिला कॉलेज में ऑनलाइन स्लोगन लिखने शिक्षक

पटना। गंगा देवी महिला कॉलेज में सारे टीचर्स के बीच ऑनलाइन वेबिनार का आयोजन हुआ। एमएचआरडी और रूसा की ओर से एक भारत श्रेष्ठ भारत अभियान के अंतर्गत इसमें टीचर्स को ऑनलाइन कोरोना की लेकर स्लोगन तैयार कर लोगों की जागरूक करने की अपील की गयी। कॉलेज की प्राचार्या प्रो. मणिबाला ने वैश्वीकरण और स्वास्थ्य से जुड़ी जानकारी देते हुए महामारी से फैलने वाले संक्रमण के बारे में बताया। अतिथि के तौर पर पाटलिपुत्र यूनिवर्सिटी मनोविज्ञान विभाग की हेड प्रो. विजया लक्ष्मी, जेडी वीमेंस कॉलेज की प्राचार्या प्रो. श्यामा रॉय और टीपीएस कॉलेज की मनोविज्ञान विभाग की प्रो. रूपम ने भाग लिया। प्रो. विजया लक्ष्मी ने लॉकिडाउन के दौरान वातावरण में आये बदलाव के बारे में चर्चा की। डॉ. रूपम ने कोरोना से होने वाले नकारात्मक प्रभाव पर बल देते हुए मनोबल और इच्छा शक्ति को बढ़ाये रखने के उपायों को भी बताया। डॉ. विद्या ने संतुलित आहार के साथ-साथ इम्यून सिस्टम को बताया।

गंगा देवी कॉलेज : छात्राओं के लिए आयोजित किया जायेगा ऑनलाइन टेस्ट

पटना. गंगा देवी महिला कॉलेज में जहां एक ओर छात्राओं के लिए ऑनलाइन क्लासेज और इ कंटेंट अपलोड किया जा रहा है. वहीं कॉलेज की प्राचार्या प्रो मणिबाला ने यह निर्णय लिया है कि हर विभाग की टीचर्स अपने-अपने विषयों से जुड़े सवाल तैयार करेंगी. इन सवालों को छात्राएं ऑनलाइन टेस्ट के दौरान हल करेंगी. उन्होंने बताया कि ऐसा करने का मकसद छात्राओं का पढ़ाई को लेकर सजगता को बढ़ावा देना है. इससे छात्राओं को अपने विषयों के चैप्टर को रिवाइज करने का मौका मिलेगा. वैसे हर सप्ताह छात्राओं के लिए ऑनलाइन जीएस और क्विज का आयोजन किया जाता है. जल्द ही म्यूजिक को लेकर वेबिनार का आयोजन किया जायेगा.

सामाजिक और आर्थिक बदलावों पर हुई चर्चा

पटना। गंगा देवी महिला महाविद्यालय में कोविड का सामाजिक आर्थिक प्रभाव पर दो दिनों का वेबिनार का आयोजन किया गया। कार्यक्रम का संचालन अर्थशास्त्र विभाग की शिक्षिका जागृति आनंद ने किया। प्राचार्य प्रोफेसर मणि बाला ने अतिथियों का स्वागत किया। समाजशास्त्र की शिक्षिका डॉ दीपा सिंह ने लॉक डाउन के दौरान बढ़ी घरेलू हिंसा पर अपनी बातें रखी। उन्होंने कहा कि यह लॉक डाउन रिश्तों को समझने का मौका दिया है। महिलाओं और बच्चों के साथ हिंसा करने के बजाये रिश्तों में मधुरता लाने की कोशिश होनी चाहिए।

पर्यावरण और मौसम में आये बदलाव पर हुई चर्चा

पटना. गंगा देवी महिला कॉलेज में शनिवार को इंटरनेशनल वेबिनार का आयोजन किया गया, जिसका विषय 'पर्यावरण और मौसम में आये महामारी कोरोना का प्रभाव' था. कॉलेज की प्राचार्या प्रो मणिबाला ने बताया कि आज पर्यावरण और मौसम में बहुत अंतर देखने को मिल रहा है. इस वेबिनार का मकसद इस अंतर को समझना है और साथ ही भविष्य में आने

वाले बदलाव को जानना है. मुख्य वक्ता के तौर पर यूनिवर्सिटी ऑफ एरियोजा यूएसए की डॉ स्निग्धा राय और बीएचयू के डॉ प्रशांत सिंह थे. डॉ स्निग्धा ने पर्यावरण में आये बदलाव के बारे में कई पहलुओं पर चर्चा की.

टीचर्स को मिली ट्रेनिंग

पटना. गंगा देवी महिला कॉलेज में पढ़ाने वाले सभी टीचर्स को कंप्यूटर और आइटी के बारे में ऑनलाइन ट्रेनिंग दी गयी. कॉलेज की प्राचार्या प्रो मणिबाला ने बताया कि लॉकडाउन की वजह से ज्यादातर टीचर्स टेक्नोफ्रेडली हो गये हैं, लेकिन अब भी कभी-कभी टेक्निकल चीजों को समझने में परेशानी होती है. यही कारण है कि कॉलेज के कंप्यूटर आइटी विभाग के अंशु ने कई सारी बातों की जानकारी दी. साथ ही टीचर्स को प्रैक्टिकल और उदाहरण दे कर चीजों को समझाया.

You may write me down in history
With your bitter, twisted lies,

You may shoot me with your words,
You may cut me with your eyes,
You may kill me with your hatefulness,
But still like air, I rise.

Just like monsoon and like sun,
